- ✓ Full breathability ensuring daily comfort and healthy skin
- ✓ Optimum fit with super soft elasticated sidepanels
- ✓ Quick absorption and dry feeling with specially designed channel system
- ✓ Leakage security with a narrow cores and high barriers perfectly suited for juniors.

### Product Description

Abri-Flex Junior XS2 is our premium pull-up pant designed for juniors with quick and uncontrolled urination and who would otherwise fall between baby diapers and adult products. The fully breathable product offers a narrow core and supersoft elasticated sidepanels for optimum fit perfectly suited for juniors. The specially designed channel system together with Top-Dry sublayer offers quick absorption and dry feeling. It is designed to look more like ordinary underwear with a printed textile-like backsheet. The dermatological tested products feature the Nordic Eco Label and are made from FSC certified materials.

Nordic Swan Ecolabel is an official Scandinavian environmental label. Products with the Nordic Swan Ecolabel meet stringent environmental requirements with regard to raw material, production, use, documentation, and safety.

FSC™ (Forest Stewardship Council) is an international non-governmental organization dedicated to the promotion of responsible forest management worldwide. FSC™-certified products are made from raw materials from well-managed forests and responsible sources. The label's traceability and integrity are upheld through stringent control measures, and by choosing FSC™-certified products, you help take care of forests and the people and wildlife that call them home. For more information, go to [www.fsc.org](http://www.fsc.org).

Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products, and medical devices.

The Dermatologically Tested symbol guarantees that products have been tested for potential skin irritations by an independent third-party laboratory.

Unique Top-Dry system that provides a rapid absorption and a dry surface even after repeated urination.

Wetness indicator is a liquid-sensitive strip that changes color or fades out indicating when it is time to change the product.

The product is equipped with barriers to prevent leakage.

ABENA's incontinence products are designed and engineered to ensure minimal odor arises from the product. Odor control is a critical factor in ensuring discreteness for the user.

The product is fully breathable making it more comfortable for a longer period of time, maintaining skin integrity.

Special feature in incontinence products and baby diapers that help disperse fluid and keep the skin dry.

Drop system indicating absorption. The more drops, the higher the absorption. Ranges from 1 to 9 drops.

The product does not contain latex.
